

AMERICAN DEMOCRACY SUMMIT 2025: WE THE FUTURE

American Democracy Summit rises to meet the critical challenges facing our democracy by bringing together experts, activists, and thought leaders from across the country and the political spectrum to address some of the most urgent issues in America today.

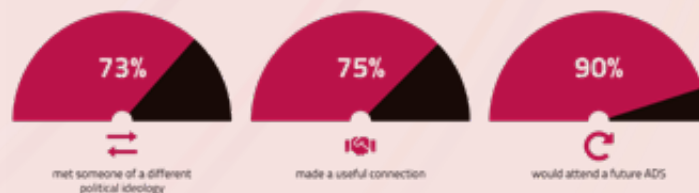

As the premier nonpartisan pro-democracy event of the year, ADS provides participants with the tools and training they need to achieve real victories for democracy. And, with inspiring speakers, dynamic trainers, A-list entertainment, and cultural influencers, the Summit is all about getting people involved and excited to tackle solutions that will fix our system and lay the groundwork for a brighter future. It's an unmatched chance to connect with the most dedicated members of the American democracy movement, offering a dynamic space for sharing ideas, learning from each other, and collaborating to build a stronger democracy.
